## SUMMARY

As a skilled web developer, I specialize in creating dynamic, responsive, and user-friendly websites using modern technologies, including HTML, CSS, JavaScript, Tailwind CSS, React, and WordPress. My expertise lies in building visually appealing interfaces that deliver seamless user experiences across devices. With a strong focus on clean code and best practices, I ensure that my projects are not only functional but also scalable and maintainable. I'm passionate about staying updated with the latest trends in web development and continuously honing my skills to deliver innovative solutions.

---

## EXPERIENCE

### Front End Developer

#### Aigumind

July 2025 - Present, Karachi

- Develop responsive and interactive user interfaces using HTML, CSS, JavaScript, Next.js and React.js.
- Convert Figma/PSD/Wireframes into pixel-perfect front-end layouts.
- Implement reusable components and front-end architecture using React.
- Optimize websites for speed, SEO, and performance.
- Work closely with designers and backend developers to deliver seamless user experience.
- Debug UI issues and ensure cross-browser and cross-device compatibility.
- Integrate REST APIs and handle client-side state management.
